Consider participating in our study:

What is the study about?

We are studying brain structure and function in children with autism spectrum disorder (ASD).

What's involved?

During one on-site visit to SickKids, you will be asked to complete:

- Brief cognitive testing
- Hearing tests
- MEG and MRI brain scans

Are there benefits to participating?

There are no direct benefits to you for participating in this study.

Participants will be given a gift certificate in recognition of their contribution.
